

# ASTROSHAMANIC HEALING

## The Way Of Taurus

With Dave Mountjoy

This Astroshamanic event explores, from a multidimensional perspective, the physical realm and in particular, the mystery of the physical body. From a belief that the human body is a solid and fixed entity, the thought of separation finds identity and the body becomes the basic element in promoting this most common human perception.

The journey into Taurus can provide opportunities for radically altering my limited perception of the body. Through shamanic journey, dance and gentle physical touch, I can explore and investigate its authentic nature and honour its presence as a major tool for undoing the perception of separation.

The event will include experiential astrology, astroshamanic touch, astroshamanic trance dance and the opportunity to share in a ceremonial circle.

Sunday 9<sup>th</sup> May
